

Crear una aplicación en Twitter

Versión Nueva

Name your App.

Apps are where you get your **access keys and tokens**, plus set permissions. You can find them within your Projects.

Understanding apps

What is an app?

Why register an app?

Which products require an API key?

App details

The following app details will be visible to app users and are required to generate the API keys needed to authenticate Twitter developer products.

App name (required)

El microondas

Maximum characters: 32

Application description (required)

Share a description of your app. This description will be visible to users so this is a good place to tell them what your app does.

Please be detailed.

Between 10 and 200 characters

Website URL (required)

https://twitter.com/RCSscientific7

Allow this application to be used to sign in with Twitter
